

HD HomeRun[®] DUAL

DVB-T
DVB-C

Two Digital Tuners, Anywhere on Your Network:

- Watch TV from any computer on your network
- Record full 1080i broadcast resolution
- Watch, Pause, Record, & Rewind Live TV
- Schedule and record all your favorite TV shows
- Expand # of tuners with multiple HDHomeRun devices

TV Sources:

- DVB-T digital TV (antenna) (HDHR3-DT) (HDHR3-EU)
- DVB-C (unencrypted digital cable TV)
 - QAM annex A/C (HDHR3-EU- only)

Works with popular DVR software:

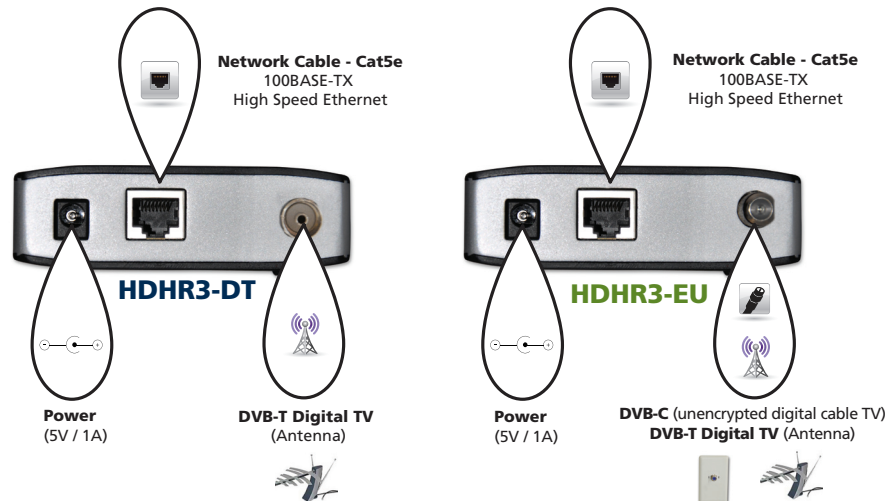

- Watch, Pause, Record, & Rewind Live TV
- Schedule future or season recordings
- Record all your favorite TV shows by name
- Integrated TV guide (provided by the DVR software)
- Never miss your favorite show

Seamless operation with multiple computers:

- Run Windows Media Center or EyeTV on multiple computers sharing the pool of HDHomeRun tuners
- Tuners are automatically allocated between computers as needed
- Multiple HDHomeRun units can be used together to expand the number of tuners
- Tuner pooling works with Windows Media Center or EyeTV
- Watch, Pause, & Record live HDTV on your **iPad** or **iPhone** wirelessly via a Wi-Fi connection in your home network. (Ap can be purchased on itunes. Not included)

HDHR3-DT (Antenna only)
HDHR3-EU (Antenna or Cable)
