

HD HomeRun[®] PRIME[™]

Three Tuners: Anywhere on Your Network:

- Watch Cable TV from any computer on your network
- Record full 1080i broadcast resolution
- Watch, Pause, Record, & Rewind Live TV
- Schedule and record all your favorite TV shows
- Expand with multiple HDHomeRun devices

TV sources:

- US digital cable TV

Works with popular DVR software:

- Windows 7, Windows Media Center
- Record all your favorite TV shows by name
- Schedule future or season recordings.
- Integrated TV guide (provided by the DVR software)
- Never miss your favorite show

Works with existing HDHomeRun Units:

- HDHomeRun PRIME can be added to existing HDHomeRun devices, to allow for additional tuners in your home network
- Allows multiple signal input sources on the same network
- Adds premium channels to your home network

Compatible with:

- Windows Media Center on Windows 7

Specifications:

- US digital cable TV - 3 tuners, 1 RF input
- Multistream CableCARD (M-Card) compatible
- 1000baseT (gigabit Ethernet) network interface (backwards compatible with 100baseTX networks)
- 1 year warranty

Requirements:

- Dual Core PC
- 2GB RAM Recommended
- 4-8GB disk space per hour of HD recording, 1-2GB per hour of SD recording
- 100Mbit or 1000Mbit Ethernet network
- Windows 7
- Subscription to digital cable service
- CableCARD (M-Card) from your cable provider

iPad 2 Compatible:

- Elgato's HDHomeRun App and SiliconDust HDHomeRun PRIME together deliver premium television and DVR capabilities to iPad 2.
- The HDHomeRun PRIME device sends the TV signal straight to the HDHomeRun PRIME App, so there is no need for the user to turn on a computer.
